### F7916 Illinois Guns Prohibited Pursuant to 430 ILCS 66/65

#### Illinois Concealed Carry Act Sign Details & Regulations

On July 9, 2013 Public Act 098-0063, commonly known as the Illinois Concealed Carry Act became law. The law provides very strict rules and requirements for those looking to carry firearms with them in public places, and also provides a way for organizations and property owners to prohibit anyone from carrying on their property or into their place of business.

Section 65: (d) provides the specifics as to the placement and dimensions of the sign that must be displayed in order to prohibit the carrying of firearms into their facility or onto their property:

- Signs stating that the carrying of firearms is prohibited shall be clearly and conspicuously posted at the entrance of a building, premises, or real property specified in this Section as a prohibited area, unless the building or premises is a private residence. Signs shall be of a uniform design as established by the Department and shall be 4 inches by 6 inches in size. The Department shall adopt rules for standardized signs to be used under this subsection.

Note: Sign material was made larger to be able to accommodate the approved sign design requirements of 6 x 4".

Sign design contains all the approved and required elements: white background, red prohibition symbol, black gun image and the only text allowed "Pursuant to 430 ILCS 66/66". Design also contains our standard Brimar logo, phone number and part number.
