SPRINGLESS STAND FOR ROLL-UP SIGNS | X4700-NSU

Designed for rugged performance and durability without straining the budget.

- Kick-release individually adjustable legs for stability on curbs and uneven terrain.
- Riveted leg caps.
- Designed to accommodate most roll-up signs.
- Orange for increased visibility.
- Single spring version deflects wind in all directions.
- Occupies only 1 cubic foot of storage space when folded.

SCREW-LOCK UNIVERSAL SIGN BRACKET

Slide the vertical crossbrace on the sign into the bracket channel. Secure the sign by turning the screw handle until the crossbrace fits tightly against the pressure plate.

CAMLOCK® UNIVERSAL SIGN BRACKET

Slide the vertical crossbrace on the sign into the channel of the CamLock bracket and pull down on the handle. This will tighten the pressure plate against the crossbrace and lock it securely into place.
