YIELD TO PEDESTRIANS IN-STREET SIGN WITH PORTABLE BASE | Y5163

Highly Visible, Rebounding Crosswalk Identification Signs

Our highly-reflective pedestrian crosswalk signs are helpful in alerting distracted drivers of pedestrian crossing zones. They provide enhanced conspicuity at non-signalized intersections and mid-street crossings in order to alert motorists to local laws concerning yielding to, or stopping for, pedestrians in crosswalks. Their innovative component design makes maintenance easy and cost efficient.

Benefits

Yields fully upon impact

Cost effective component design

Anti-twist reactive spring system returns unit upright when struck

Constructed of flexible plastic that is resistant to damage from UV light, ozone, and hydrocarbons
